Spring Cleaning Challenge 2026

Spring is the perfect time for a reset. The air is warm and fresh, the days are getting longer and suddenly you can see the dusty shelves and baseboards you ignored this winter. That's where this challenge comes in.

At GoCleanCo, we believe deep cleaning twice a year is the secret to a home that actually feels manageable. We do the heavy lifting together, once in the spring and once in the fall, so the rest of the year is just maintenance. Clean it properly, then coast.

This Spring Cleaning Challenge runs for **4 weeks**, plus a **Bonus Week at the end** to catch up or tackle extras like your home gym, office, or that room you pretend doesn't exist. By the end, your home will feel lighter, calmer, and easier to keep clean, without spending every weekend scrubbing.

Millions of people have joined our cleaning challenges over the years, and the feedback is always the same: the hardest part is starting. Once you finish even one room top to bottom, something clicks. The house feels better. You feel better. And suddenly it's not overwhelming anymore.

You don't need perfection. You need a plan, a vacuum, a mop, and a little accountability. I've got you.

How It Works

Each week focuses on a specific area of your home, broken down into realistic, doable tasks. Follow along at your own pace, skip what doesn't apply to your home, and use the Bonus Week however you need.

Need motivation? I'll be sharing tips, reminders, and real-life cleaning momentum over on [Instagram](#) | [YouTube](#) | [Facebook](#) | [TikTok](#) | [Snapchat](#) | [Our Newsletter](#). Join in wherever you hang out most.

BIG BONUS:

Purging

It's easiest to purge as you clean. Since you're deep cleaning, you'll already be pulling things out anyway. If you haven't used or thought about something in the last six months, it's probably time to let it go.

Make two piles as you go, donate and trash. Purging reduces clutter, makes organizing easier, and helps you stop bringing unnecessary junk into your home. Letting go of physical stuff also clears mental space. It feels really good.

Organizing

The best organizing systems are based on how you actually live. Items you use daily should be easy to reach and stored at eye level. If you have kids, organize spaces so they can reach things and help put them away. Everyone pitches in.

Use containers, dividers, or boxes you already have to create simple, functional storage that fits your space. Organizing isn't about perfection, it's about making daily life easier.

Supplies

Use what you have first. You don't need every cleaning product on the market. Different surfaces need different cleaners, so always read labels and spot test if you're unsure.

Our most versatile cleaning solution is hot water and powdered Tide®. It's safe for *most* surfaces and works incredibly well with a microfiber cloth.

RECIPE

- 1 gallon hot water
- 1 teaspoon powdered Tide® (must be powdered)
- Optional: 1/3 cup bleach

Add bleach only when disinfecting, and only on bleach-safe surfaces. Avoid carpets, furniture, and wear old clothes.

Always vacuum before wiping. Wiping first just turns dust into mud. Vacuum hard surfaces, ledges, baseboards, and window tracks before you wipe.

As you clean each room, don't forget the hallways and doors that lead into it.

○ Deep clean the rest of the room

Step-by-step instructions can be found [here](#).

○ Sink and faucet

○ Countertops

○ Table and chairs (including their legs)

○ Floors and baseboards

Quick win:

Organize your Tupperware drawer. Match lids, toss the strays, enjoy the chaos leaving your body.

Feeling overwhelmed?**Start here:**

Clear and clean your countertops first. Put anything that doesn't belong there into a basket to deal with later. You'll need the space to empty your fridge and pantry.

Common roadblock:

"I don't have time right now to pull everything out." You don't need to. One drawer or cabinet at a time is the best way.
